

## ESTIMATES FOR RAILWAYS ARE BEFORE HOUSE

**Entire Sum Considered Is Chargeable to Income of the Department**

OTTAWA, May 17.—(Canadian Press)—The Canadian government's estimate of railway and canal charges to income, were taken up, when the House of Commons sat yesterday afternoon.

The amount was that of \$4,000,000 to meet expenditures made or intended to be made, where amount availed itself from net operating revenue which was "insufficient" by or on behalf of the Canadian Northern Railway, the Canadian Northern Railway, or any other railway comprising in full or in part the Canadian system, or any part of the following accounts:

(a)—Operating deficit;

(b)—Capital and working funds, or cash, securities of or obligations;

(c)—Principal and interest of maturing or matured loans occurring during the year;

(d)—Construction and bettering;

(e)—Co-ordination or consolidation of railway lines and services;

Hon. W. C. Kennedy, minister of railways and canals, said the amount was required for this year as at March 31, 1921, had been reported to him by the Canadian Northern, who submitted to the department of railways and canals, a statement asking for money to be paid for necessary. While there was no question of the right of extension of extensions, the government had not lost sight of the fact that there were many who wanted to go west and they would be proceeded with.

**Vote is Analyzed**

Mr. Kennedy analyzed the vote required as follows:

Construction, \$1,266,184; maintenance of way, \$1,000,000; eastern lines, \$1,021,285; Halifax and St. John, \$1,000,000; construction, \$1,462,737; right of way, survey, \$1,000,000; Canadian Northern, \$1,000,000; departmental railway, \$1,000,000; commercial, \$110,784; stores departments, \$1,000,000; and \$1,000,000 in meted operating account deficit \$8,000,000; and \$1,000,000 in capital and interest, \$18,767,120; sinking fund, \$1,112,132; and \$1,000,000 in amounts due to provinces maturing in 12 months, \$2,000,000 contracts payable, \$223,522.

Hon. Walter Mitchell, Liberal, at the end of his speech, in explanation of his stand on the railway question during the election, he said: "I am still of the same opinion that the Canadian Northern should not be nationalized, but that in consideration of the vast area that we have to cover, and the cost of development of its development, of its enormous debt and the fact that it is now in financial trouble, I do not believe our country can stand by and let it go to the limit. I do not believe our country can stand by and let it go to the limit—unless it is given to me, but I ask that you give me the same consideration."

**No Political Issue**

"Let us discuss this question without consideration of politics. It is not to be considered a political issue. It is a national issue. For, if I am right I feel it is a danger to the country that in consideration of the vast area that we have to cover, and the cost of development of its development, of its enormous debt and the fact that it is now in financial trouble, I do not believe our country can stand by and let it go to the limit—unless it is given to me, but I ask that you give me the same consideration."

Here Mr. Mitchell read extracts from the election manifesto declaring his opposition to government subsidies, and asked for an inquiry by the best experts obtainable in America.

During the campaign Mr. Mitchell had been in close touch with the government operation and had urged an investigation to get to the bottom of the good sense question.

**The Good Sense Question**

The question of the most serious problems facing the Canadian people, but Conservative, was good sense. This suggestion was good common sense and was adopted by any concern having to do with a similar situation. It had been advanced by the best experts obtainable in America.

During the campaign Mr. Mitchell had been in close touch with the government operation and had urged an investigation to get to the bottom of the good sense question.

**Lady ASTOR KNOWS EXACTLY**

(Continued from Page One)

lady with me to my cottage, my wife's. The next instant she had caused me to fall in love with one, mightily loving— and they rose up and thanked her. She inspired them to do their best, and I am sure that many who did not agree with the campaign took up the torch. The campaign was to the effect that that of course, the government, and the operation of railways, have no obligation to those who are given to me, but I ask that they give me the same consideration."

**No Political Issue**

"Let us discuss this question without consideration of politics. It is not to be considered a political issue. It is a national issue. For, if I am right I feel it is a danger to the country that in consideration of the vast area that we have to cover, and the cost of development of its development, of its enormous debt and the fact that it is now in financial trouble, I do not believe our country can stand by and let it go to the limit—unless it is given to me, but I ask that you give me the same consideration."

During the campaign Mr. Mitchell had been in close touch with the government operation and had urged an investigation to get to the bottom of the good sense question.

**Labor Leader Declares Ireland is Safe with Empire Behind Her**

London, May 17.—(Canadian Press Cable)—In his concluding article in the Manchester Dispatch dealing with the Irish question, Mr. J. C. Clynes, member of parliament for Dublin, said:

"I am sure that the members of the British Parliament will be satisfied to learn that Ireland is safe with the Empire behind her."

**A Busy Lady**

Miss Elizabeth Astor, Christie Street hotel singer in the day, attended a reception given by the manager of the hotel to the members.

Lunches and dinner parties were held with a glee club, and Miss Astor left for Ottawa tomorrow to speak at a concert day in this city.

**Labour Leader Declares Ireland is Safe with Empire Behind Her**

London, May 17.—(Canadian Press Cable)—In his concluding article in the Manchester Dispatch dealing with the Irish question, Mr. J. C. Clynes, member of parliament for Dublin, said:

"I am sure that the members of the British Parliament will be satisfied to learn that Ireland is safe with the Empire behind her."

**Mr. Mitchell Retired**

Mr. Mitchell reported that even though he had been in close touch with the Canadian government, it did not alter the point that the responsibility for the financial difficulties presented by the minister of railways belonged to the management of the railways.

The total sum of \$7,314,230, or per capita debt of approximately \$7.00.

**Snow, Look, Listen**

It was not fair to suggest to the Canadian government that they stop, look and listen before they made any decision, he said. He had charged during his election campaign was leading to a dead end.

Mr. Mitchell, however, leader argued that it had not been for the sake of the party that he had not fought, the railway problem would not have been solved.

Mr. Mitchell realized the effect the railway deficit might have upon the national credit, but he believed that the way to defeat would cause the credit to deteriorate.

The Canadian Pacific Railway was striking evidence of the soundness of Canada's financial position.

The ownership of the railways declared that they had not been asked to be used, but they offered no alternative to the public.

**Private Ownership Felt Down**

It was a fair question to ask: "What was the attitude of the Canadian government?" Mr. Mitchell had not taken up private ownership, and the mileage in the national system today was because of the company's failure to manage the ship. This was in spite of the fact that all the railroads in the country had received assistance to the extent of \$800,000,000.

The Canadian government had been criticized by the post government because it had acquired the Grand Trunk railway. The Grand Trunk had desired to evade its responsibility.

## ITEMS OF GENERAL AND CIVIC INTEREST

A lady writes to The Bulletin saying that the height of the street car steps should not be a matter of safety, but that the steps are now down to the level of the curb. She said that was a very high-speed city official, who believed the Social and Moral Reformation was at the bottom of the whole movement.

It was known to all persons having any knowledge of the subject that the idea of creating a city for the province presented a great deal of difficulty. There have been one of the reasons why the Canadian Northern Railway, the Canadian Northern Railway, or any other railway comprising in full or in part the Canadian system, or any part of the following accounts:

(a)—Operating deficit;

(b)—Capital and working funds, or cash, securities of or obligations;

(c)—Principal and interest of maturing or matured loans occurring during the year;

(d)—Construction and bettering;

(e)—Co-ordination or consolidation of railway lines and services;

The funeral was held at the church of the Holy Cross.

Mr. and Mrs. J. E. Stott, who have moved to the new residence.

The funeral was held at the church of the Holy Cross.

## CAN EAT MEAT FOR FIRST TIME IN TWO YEARS

**Britain Loses Over Three Million Working Days in March Owing to Strikes**

LONDON—It is estimated that 3,000,000 working days were lost in Great Britain in March owing to strikes involving 240,000 workers. The principal disputes were in the coal mining industry, the engineering trades, shipbuilding and the cotton and wool textile industries.

Changes in rates of wages reported by various trades showed improvement, though not so great as in the cotton and wool textile industries.

Among industries showing improvement were iron, mining, pig iron and steel, engineering, shipbuilding, the cotton and wool textile industries.

# Woolfram Shuts Out Eskimos

## Railways Defeat Vets in First Division Football Game

# SPORT

### WOOLFRAM PITCHES AIRTIGHT BALL

HELD ESKIMOS TO NO HITS  
UNTIL TWO MEN WERE OUT  
IN NINTH FRAME; SCORE 5-0

Eskimos Were Helpless Before Masterly Chucking of the Tacoma Mount Ace—Game Had Much Snappy Fielding However. Hagerman Breaks up No-Hit No-Run Try with Scratch Blow and Gleichen follows with House Single.

|           | W | L | Pct. |
|-----------|---|---|------|
| Calgary   | 5 | 4 | .582 |
| Vancouver | 6 | 5 | .600 |
| Edmonton  | 4 | 7 | .364 |

TODAY'S GAME: Tacoma at Edmonton. Vancouver at Calgary. Yesterday's results: Tacoma 1, Edmonton 0. Vancouver 1, Calgary 0.

Pitcher Woolfram was the much too good for the Eskimos last night when he had a chance to shut the home club out. Woolfram came within an ace of a no-hitter after only two men were out in the ninth frame, but he was unable to deliver himself of some forced-up options above.

Woolfram, who had a 10-inning no-hitter for the Eskimos last night when he had a chance to shut the home club out, was unable to give him a record spoiled by a scratch blow from Hagerman in the ninth frame.

At that time no blow had been registered, but the Eskimos had been registered, and the home club out, and the game was over.

Woolfram pitched one of the first games ever seen on the field at all times. On only three or four occasions did he allow a ball to fall in the ball square, and then it went to some fielder.

He twirled a very respectable game, except in the ninth frame, when they were scattered as many as

anything. **Delayed Frame.**

That third frame was theединine game, except one out, Cadman got a single. Keeler had a double, and Woolfram's third strike and the Tacoma pitcher drew a walk. Then, when he drew a walk, he was walking over the plate and was unable to get a sacrifice fly to right field scoring Woolfram, and the Eskimos had a run.

Keeler started in second and Keena third, had a single, and then scored after a double to Hauser and the game was over.

In the fourth Tacoma added one.

On the fifth Hagerman hit a single, and then followed a double to right field, and the Eskimos had another run.

McGilligan and Gleichen added one.

RICKARD WILL OFFER DEMPSEY ANOTHER BOUT

Champion Will Arrive in New York Friday and Opponent Is Waiting

New York, May 15.—Jack Dempsey, now heavyweight champion, however, found from Europe, will not fight until hour almost as soon as he is able to do so.

He will be in, as probably as the Tex Rickard, who has signed Harry Willard during the month of June, to meet Dempsey.

Dempsey will be in the heavyweight title contest during the coming summer, while he will be serving his sentence in the hospital.

It is thought that the champion could have a contest with the champion, keeping with present financial conditions.

May Be in Montreal

If Dempsey comes to box Willard, he will be in the ring on July 15. A meeting on July 15 will be held at the Hotel Royal on or near Labor Day, July 24, and probably be for fifteen rounds to determine the champion.

It would be for twelve rounds without decision, to conform with his summer boxing plan today, stated that he had

Henny Leonard and Lew Tendler in a July fight attraction.

He has Leonard, a recent 15-round champion, and has offered the latter a \$1,000 purse if he can beat him.

The champion's share will be \$1,000, and may go to his higher bunch as the followers of boxing desire the match.

The exception of Dempsey, Carpenter, and Gleichen, the fighters receive in excess of these figures."

INDOOR REVOLVER SHOOTING

MONTREAL, May 15.—The winners of the indoor revolver shooting competition of the Canadian Amateur Shooting Association were announced today as follows:

Dominion champion, D. H. Edwards, of Ottawa.

Western provincial champion, W. G. Hagerman, of Vancouver.

Provincial champion, J. V. E. Landy, of Victoria.

The competition conditions were

that each

### Riverdale to Play Beverly in Third Division Contest

The athletic grounds at Beverly will be the scene of the encounter between Riverdale and Burke's out at first ac-

count for the fifth round.

## ALBERTA BYELECTIONS IN JULY

No Definite Date Fixed But Cabinet Decides on First Half of Month

The three provincial by-elections in the constituencies of Sedgewick, Ribstone, and Whitford, will be held in the early part of July.

This information was given out by Premier Greenfield Wednesday shortly after noon, after the executive council, which is now in its most continuous session, had discussed the matter during the morning.

While the Premier would not give out the actual date upon which the elections will be held, stating that it was not yet definitely settled by the cabinet, he admitted the date would probably be fore the end of July.

The by-election in Leduc will be necessary by the resignation of Hon. Charles Stewart, now Minister of the Interior; the vacancy in Ribstone was created by the death of the late C. O. F. Wright, and the Whitford election results from the unseating of former member A. Standro by the courts.

## CALMAR FARMER DROPS DEAD AS WORKS AT FIRE

George Phillips Found Near Burned Brush Pile — No Inquest

George Phillips, aged 75 years, was found dead in a field in the Calmar district. His clothes, axe-blades and eyebrows ached with fire, but his son, Charles, said he had been working about his farm, cutting brush and ploughing in a distant part of the field and had become enfeebled with the heat. He had been working barefoot, had brought on a state of exposure and exhaustion, and he died according to the opinion of the doctor, from a heart attack due to the exertion.

He had been married to the farm of his son the ploughman and had a son and a daughter. He had not returned home after the fire. As he did not return home at six o'clock yesterday evening, his son and he were found lying dead about ten feet from the brush pile when his wife and son came with one of his daughters and up to the time of death he was still breathing.

He has a married daughter living at Banff. An inquest will not be necessary according to information from Mr. George Dawson, of the A.P.I. force at Leduc.

## ANTI-VISITION SOCIETY WILL SEND PROTEST TO OTTAWA

With a committee composed of Mrs. Bandit, Mrs. G. H. Ross, a campaign to be sent to Ottawa to protest the interests of the anti-visitation society, which is engaged in living animals for experiments in surgery.

A section has been framed and will be circulated, asking the government to prohibit the society's action to which it will be forwarded to the Canadian government, forbidding the exhibition of performing animals and birds in places of public entertainment.

**TO VISIT ENGLAND.** Donald Ross of Edmonton and his wife are leaving for England this week for a few days. They will mail on the Metta.

Short of Breath

A cold acre creeps on about the first bodily organs to play out their kindred, to lay down the last.

With less activity and less exercise less food is required. But there is a tendency to eat too much—particularly to eat too much meat.

The River Kidneys and Liver Pills are great favorites and there is suffering from indigestion, pain about the heart, backache, piles for a while, the trouble disappeared.

Dr. Chase's Kidney-Liver Pills are great favorites among the older people, because they correct the action of these filtering organs, purify the blood and bring comfort and health.

## FREE AT LAST OF KIDNEY TROUBLE

### "Fruit-a-tives" Brought Health and Strength

624 Champion St., Montreal. "For three years I suffered constantly from Kidney Disease and Bladder Trouble. My health was miserable and I could not work. The usual medicine did not do me good. Then I started to use "Fruit-a-tive" and the effect was remarkable. All the pains, Headaches, Indigestion and Consumption were relieved and once more I was well."

"All who suffer from such troubles should take "Fruit-a-tive"."

"Madam HORRIFIC POISE."

Box 6, \$6 for 250, trial size 25c.

At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## BRITISH MANDATE FOR PALESTINE TO BE CONSIDERED

### League of Nations Still To Deal With This Long-Standing Question

Genoa, May 15.—The council of the League of Nations decided today to hold a special meeting on June 15 to consider the question of approving the British mandate for Palestine.

Lord Balfour, in a speech before the League, said that the British were greatly disappointed that the present members had failed to register the mandate, which the allied powers had agreed to give to Great Britain.

Lord Balfour pointed out to the council that the British had not been able to get the recognition of the mandate, but the League was still in the process of doing what was expected of it.

The League could not change the decision of the members, but it could advise the members.

The members continued Lord Balfour, it was clear that the British organization was unfortunate. Great Britain was amazed to find that such a large number of countries had joined in the transfer of Palestine from a Mandate to a League of Nations.

The council has appointed Dr. Felix Carruthers, of the mixed tribunal for Palestine, to represent the British organization.

There is much interest here in the question of the British mandate, particularly in empowering the council to consider the question of the transfer of Palestine to the British.

Samples of potato flour have been received from the United States, Canada, Australia, New Zealand, and South Africa.

**NORTHERN SETTLER FOUND DEAD WITH BULLET IN SKULL**

With a bullet hole in his head, a Northern settler, who had committed suicide, was found dead at his home in Seward in the Athabasca River valley, 10 miles from Fort McMurray.

There were no explanatory letters, but the police said that the settlers were convinced that it was a case of suicide.

Mr. W. E. McLean, of the Old Mill, recently arrived in Edmonton, and it is likely that he will not be returning to that State. The settlers have no objection to his return.

An inquest will not be necessary according to information from Mr. George Dawson, of the A.P.I. force at Leduc.

**FAME OF EDMONTON'S OLD MILL REACHES THE PACIFIC COAST**

The fame of Edmonton's old mill reached Vancouver and the secretary of the amusement park that houses the famous roller coaster erected at the coast city.

A wire Wednesday morning enquired if there were any plans for the erection of a roller coaster in the direction of the old mill.

It is understood that Edmonton is the only point on the continent where a roller coaster was included in the plan.

Mr. E. W. Wilson, of the Old Mill, resides in Edmonton and it is likely that he will not be returning to the coast.

The aquatics centre of the city of Vancouver.

**NEW TRAIN SERVICE.**

A mixed train service will be established on the Calgary Acme branch of the Canadian Pacific Railway.

To local officials this trip is proving to be a success, and the company is in a position to offer a service in order to secure accommodation are placing their orders for months ahead.

**MANY GO TO ALASKA.**

Accommodation on the Canadian Pacific's Alaska line is proving to be a success, the manager said.

According to local officials this trip is proving to be a success, and the company is in a position to offer a service in order to secure accommodation are placing their orders for months ahead.

## POTATO FLOUR FACTORY QUITE FEASIBLE IDEA

### Would be Means of Disposing Of Second Grade Potatoes At A Profit

Manufacturing potato flour from the second grade potatoes at Edmonton is a feasible idea, according to an interpretation, according to R. C. Lett, colonization agent of the Canadian Pacific, who has collected considerable information on the subject.

The second grade potatoes may be used for animal feed, but it is not a substitute for wheat.
